

Swathi Susarla

Product Designer | UX/UI Designer

+91 8125937199 | swathirssusarla@gmail.com | [LinkedIn](#) | [Behance](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Product Designer with 2+ years of experience designing SaaS dashboards, operational workflows, customer-facing digital products, and data-rich interfaces. Experienced across UX strategy, information architecture, wireframing, prototyping, high-fidelity UI, design systems, usability testing, accessibility, and developer handoff. Interested in B2B SaaS, fintech, analytics, AI-enabled products, and enterprise UX.

CORE SKILLS

UX & Product Design: UX Strategy, User Flows & Information Architecture, Wireframing & Prototyping, Interaction Design, High-Fidelity UI, Usability Testing, Accessibility, Design Systems

Product Domains: B2B SaaS, Enterprise Dashboards, Data Visualization, Case Management, Fintech, Healthcare, Fleet Operations, Conversational UI

Tools: Figma, Figma AI, FigJam, Google Stitch, Sketch, Adobe XD, Photoshop, Framer, Notion, Jira, Miro

Collaboration: Agile/Scrum, Cross-Functional Collaboration, Stakeholder Communication, Design-to-Development Handoff

PROFESSIONAL EXPERIENCE

UI/UX & Visual Designer | Lexodd Hypernova Pvt. Ltd.

Oct 2024 – Jul 2026

- Designed scalable SaaS dashboards and chatbot interfaces with reusable component libraries and accessibility considerations across 10+ screens.
- Owned end-to-end UX for new features from stakeholder discovery and wireframes through high-fidelity prototypes and developer handoff.
- Conducted usability testing across key flows and used findings to address navigation and interaction friction.
- Partnered with product managers and engineers in Agile sprints, maintaining design consistency through design-system governance.

UI/UX Designer | Techboox

Mar 2024 – Oct 2024

- Translated ambiguous business requirements into user flows, wireframes, prototypes, and polished UI for enterprise and consumer platforms.
- Redesigned onboarding and dashboard flows with a focus on clearer navigation, form completion, and product adoption.
- Established layout and visual-language standards to improve consistency across product experiences.

UI/UX & Graphic Designer (Freelance) | The Digital Arm — AR/VR

2023 – 2024

- Designed an end-to-end mobile experience for an AR/VR product, covering onboarding, core interaction flows, errors, and empty states.
- Created interaction patterns and micro-interactions suited to spatial-computing constraints.

SELECTED PRODUCT WORK

Nexus — AML Intelligence Hub | Independent Concept · B2B SaaS / Fintech · 2026 | [Case Study](#) →

- Designed a desktop AML investigation concept covering alert triage, case investigation, entity relationships, manager oversight, and audit visibility.

Orbit — Supply Chain War Room | Independent Concept · Supply Chain / Operations · 2026 | [Case Study](#) →

- Designed an operational war-room experience for real-time supply-chain visibility, risk monitoring, and decision support.

Connect2Uni | Live Product · International Education | [Live Product](#) →

- Designed an end-to-end international admissions experience with a simplified multi-step application journey and real-time status dashboards.

Fuel Genie | Live Product · Fleet Management | [Live Product](#) →

- Designed a dark-mode mobile experience and operational dashboards for drivers and fleet managers covering fuel usage, efficiency, and payments.

Sri Krishna+ Healthcare | Live Product · Healthcare | [Live Product](#) →

- Designed patient registration, appointment booking, doctor availability, diagnostics, and patient-portal experiences for a live clinical practice.

Kota Neelima | Social Impact Website | [View Website](#) →

EDUCATION

MBA (In Progress) — IT & Fintech Management and Analytics & Data Science

Manipal University Jaipur | 2025 – 2027

B.Sc. in Animation (Minor: Computer Science)

Aditya Degree College

CERTIFICATIONS & RECOGNITION

- IBM Enterprise Design Thinking — Practitioner & Co-Creator
- Interaction Design Foundation — AI for Designers; Mobile UX Design; Portfolio Strategy
- Top 10% Global IxDF Learner
- IxDF Social Impact Award

DESIGN APPROACH

Research and structure first, then simplify through clear information hierarchy, purposeful interaction, accessible UI, and consistent design systems. Comfortable taking a feature from ambiguity to handoff while collaborating closely with product and engineering.
